

MOTORIZED ROLLER SHADES

Roll-A-Shade® specializes in motorized window treatments for everything from use in restaurants to executive conference rooms. Our complete line of automated and motorized shades systems can be adjusted for changing activities or changing sunlight, with just one touch.

Our motorized window shading systems can be operated by remote control, switches, AV, office automation systems, timers and sun/heat sensors which increases energy efficiency and adds sophistication as well as beauty to any office.

Motorized shades are available in sun screen, light filtering and complete blackout materials. There are many opacities and colors to fit your design needs. Shades are available in AC, DC, solar and battery powered. Each shade can be controlled individually, as sub groups or all at one time.

There are many options available to integrate with A/V systems. Our shades can be made in various sizes and up to 50 lbs.

Motorized Green!

- Automated operation when building is unoccupied increasing efficiency
- Reduces solar heat gain that is transmitted to the interior through the glass and shading system in the summer
- Introduces natural light decreasing the need for fluorescent lighting and invites solar heat gain to assist with winter heating
- Heat and sunlight sensors
- Solar powered options
